

Benefits of Motorcycling to the Community

Project Leader:

John Eacott

Background

Motorcycle use is able to deliver significant benefits to the community in a number of areas.

These include:

- Reduced environmental impact;
- Congestion reduction;
- Reduction of pressure on parking;
- Reduced impact on Road transport Network infrastructure;
- Economic benefits of PTW Commuting
- Wellbeing effects for the motorcycle user;
- Economic benefits of motorcycle tourism

Project Description

The project will gather relevant data and information from a range of sources to support the stated benefits of motorcycling to the community. The project will present a summarised document that can be used to quickly and simply educate and raise awareness of the benefits to relevant government entities, motorcycle groups, community groups and the general community.
